

## Table of Contents

<b>1. Introduction .....</b>	<b>1</b>
1.1 Scope .....	1
1.2 Overview .....	1
<b>2. Transducer Blocks for HART® .....</b>	<b>2</b>
2.1 Transducer Block for Wired HART® and <i>WirelessHART™</i> Device .....	2
2.1.1 Description .....	2
2.1.2 Supported Modes .....	2
2.1.3 Block Access .....	3
2.2 Transducer Block for HART® Gateway .....	4
2.2.1 Description .....	4
2.2.2 Supported Modes .....	4
2.2.3 Block Access .....	4
<b>3. Data Type .....</b>	<b>5</b>
3.1 Enumeration definition for HART_DIAG_MAP .....	5
3.2 Parameter Attribute Definitions .....	11
3.3 Parameter Descriptions and Values .....	12
3.3.1 Parameter Descriptions .....	12
3.3.2 HART_DIAG_MAP initial Value .....	13
<b>4. HART Gateway Function .....</b>	<b>15</b>
4.1 Scanning HART Input Process Values .....	15
4.2 Scanning HART Input Parametric Values .....	15
4.3 Processing Fieldbus Foundation Output Values to HART .....	16
4.4 Processing HART Diagnostic Indications & Alerts .....	16
4.5 Expected Host Relationships .....	16
4.5.1 Asset Managing Host for Wired and <i>WirelessHART™</i> Devices .....	16
4.5.2 Operational Host .....	17
